**A message from Dr. Michael Hirsh,
Surgeon-In-Chief for UMass Memorial
Children's Medical Center and Medical
Director for the Division of
Public Health, City of Worcester:**

An unsecured weapon in the home is a public health danger that leads to more frequent homicides, burglaries, lethal domestic violence, accidental shootings and suicides in the home.

Please honor the memories of all our citizens, young and old, harmed by gun violence by bringing in your unwanted/unsecured weapon(s) (unloaded please) in a plain plastic or paper bag.
