

# General Obstetrics and Gynecology

## The Maternity Center at UMass Memorial Medical Center

Our family-friendly Maternity Center offers spacious, private birthing suites equipped for labor, delivery and recovery. Our postpartum floors are also equipped with private rooms, providing a comfortable, homelike setting. Plus, we have the region's only Level III Newborn Intensive Care Unit and New England's first umbilical cord blood donation program. Inpatient and outpatient lactation services are readily available for breast-feeding mothers along with a variety of educational classes for new families. We have a close partnership with UMass Memorial social workers and women's health psychiatrists for support and treatment of new mothers and families when the need arises.

UMass Memorial Health Care is the largest not-for-profit health care system in Central Massachusetts with 1,700 physicians and more than 13,000 employees. Our member hospitals are:

- Clinton Hospital
- HealthAlliance Hospital
- Marlborough Hospital
- UMass Memorial Medical Center
- Wing Memorial Hospital and Medical Centers

Contributions to UMass Memorial Health Care are deeply appreciated. Call 508-856-5520 or email [giving@umassmed.edu](mailto:giving@umassmed.edu).

UMass Memorial Medical Center is the region's trusted academic medical center, committed to improving the health of the people of Central New England through excellence in clinical care, service, teaching and research. The Medical Center offers a full complement of advanced technology and support services, providing the region with specialists renowned for their expertise in clinical areas including cardiology, orthopedics, cancer, diabetes, emergency medicine, surgery, women's health and children's medical services.

## Why choose UMass Memorial for obstetric and gynecologic care?

**Our outstanding physicians are dedicated to women's health.**

- Our board-certified obstetricians and gynecologists are compassionate, caring clinicians who are also actively involved in research and education relating to women's health.
- They serve on the faculty of the University of Massachusetts Medical School and thus are on the leading edge of an evolving field of medicine.

**We provide today's most advanced diagnostic, consulting and treatment services for the full range of reproductive health needs.**

- Annual gynecologic exams and preventative health screening
- Colposcopy, LEEP surgical excision and ablative therapies for abnormal Pap smears and cervical dysplasia
- On-site gynecologic ultrasound on our Memorial Campus for the evaluation of pelvic disorders and symptoms
- Comprehensive obstetric care with on-site ultrasound and genetic counseling services, including first-trimester

screening for genetic disorders, chorionic villus sampling and amniocentesis; prenatal education, nutrition and women's mental health services are also available

- Up-to-date therapies for abnormal bleeding and uterine fibroids, including nonsurgical modalities, uterine artery embolization and endometrial ablation
- Minimally invasive surgery, including hysterectomy
- Close collaboration with UMass Memorial Medical Center, allowing for easy access and ready consultation for gynecologic cancer, reproductive endocrinology and infertility, high-risk pregnancy, and urogynecology and reconstructive pelvic surgery

**You receive patient-focused, personalized care from a team of professionals.**

- Our physicians work closely with a team of medical professionals, including nurse practitioners, social workers, nutritionists and nurses who have extensive women's health experience and who enjoy working with obstetric and gynecologic patients.
