UMASS MEMORIAL MEDICAL CENTER

Nursing Professional Development Department

Epic Clinical View Only Training

Students must complete the four Epic Clinical View Only training modules. If you have the ability to do the four modules as a group, it may go faster. The Library is an option for group work. If you use a WOW, or Wall-a-roo, it's tricky because you want to have a speaker attached. Most units have at least one WOW, or dedicated PC for eLearning with a speaker attached. Then each student can do their own quiz at the end.

Please Note: *An **IS Security Access Request Form** must be completed by your school and sent to Kathy Brule (Kathleen.Brule@umassmemorial.org) prior to training.*

Step 1: Complete all four modules* of ***Epic Clinical View Only*** training videos

   Module 1: *Overview of Hyperspace*

   Module 2: *Overview of Hyperspace in an Outpatient Setting*

   Module 3: *Overview of Hyperspace in an Inpatient Setting*

   Module 4: *Reviewing the Chart*

* If you will be working in the ***Emergency Department***, you must also complete
   Module 5*: Overview of Hyperpsace for ASAP Users*

* If you need access to the ***Psych Integrated Template (PINTRC)***, you have 2
   additional requirements:

   1. Complete **Module 5:** *Overview of Hyperpsace for ASAP Users*
   2. Review the ***Epic Quick Start Guide***

Step 2: Complete the ***Epic Clinical View Only End User Proficiency Assessment (EUPA)***

Step 3: Email ***epictraining@umassmemorial.org*** once you complete the EUPA

- Include a screenshot of your passing score on the EUPA.

We will contact the Epic User Security team to notify of your completion and request your account activation.
